

Language and the study of it are changing rapidly in the age of digital media; our use of language is gradually shaped by and is in turn shaping new media. Exploring the interplay between digital media and language in society and covering a broad selection of research contexts, books in Language and Digital Media investigate both language online and people's practices around it, including how they create and how they use online texts. Each title includes both an overview discussion of the topic as well as analysis of data.
